ABOUT MICRONEEDLING

Commonly known as Collagen Induction Therapy (CIT), microneedling is an advanced skin rejuvenation technique that uses shallow needles to stimulate the top layers of the skin. This treatment creates a release of natural growth factors (your skin's native regenerative proteins), naturally rebuilding your own collagen and elastin.

MICRONEEDLING AT HOME 3 TIMES WEEKLY IMPROVES

- Fine Lines & Wrinkles
- Sagging Skin
- Texture & Tone
- Discoloration

WHAT'S INCLUDED

ANTEAGE® HOME MICRONEEDLING SOLUTION 2ML ROLLERBALL VIALS

Stem Cell Growth Factors and High Grade Hyaluronic Acid combine to provide a regenerating dose of nourishment to flood your skin cells sending biosignals that command repair.

MICROCHANNEL ROLLER

Our custom roller has been designed with 0.25mm needles, a safe length to optimize the application of the growth factor solution while stimulating a collagen response for skin tightness and rejuvenation.

HOME MICRONEEDLING SYSTEM

The AnteAGE® Home Microneedling System is a safe and natural rejuvenation treatment that reveals healthier, more youthful looking skin.

The system contains two products: AnteAGE® Microneedling Solution and a Microchannel Roller (.25mm). These products work together to reactivate the skin's natural regenerative properties.

Use AnteAGE® Home Microneedling alone or in between your professional treatments to maximize the regenerative effects of CIT. Stem cell growth factors and high molecular weight hyaluronic acid enhance your skin's healing response to restore a natural, youthful glow.

HOME + PROFESSIONAL MICRONEEDLING

HOME

- Targets skin's top layer
- Minimizes fine lines
- Reduces the appearance of pore size
- Improves skin tone
- No downtime or discomfort

PROFESSIONAL

- Reduces scar tissue
- Targets deep lines & wrinkles
- Improves skin volume
- Great for hyperpigmented skin
- Effective for all skin types and tones
